

Veil

ヴェイル

Nm1/155

52%Nylon, 48%Polyester(Metallized Film)

Minimum : approx 0.5kg

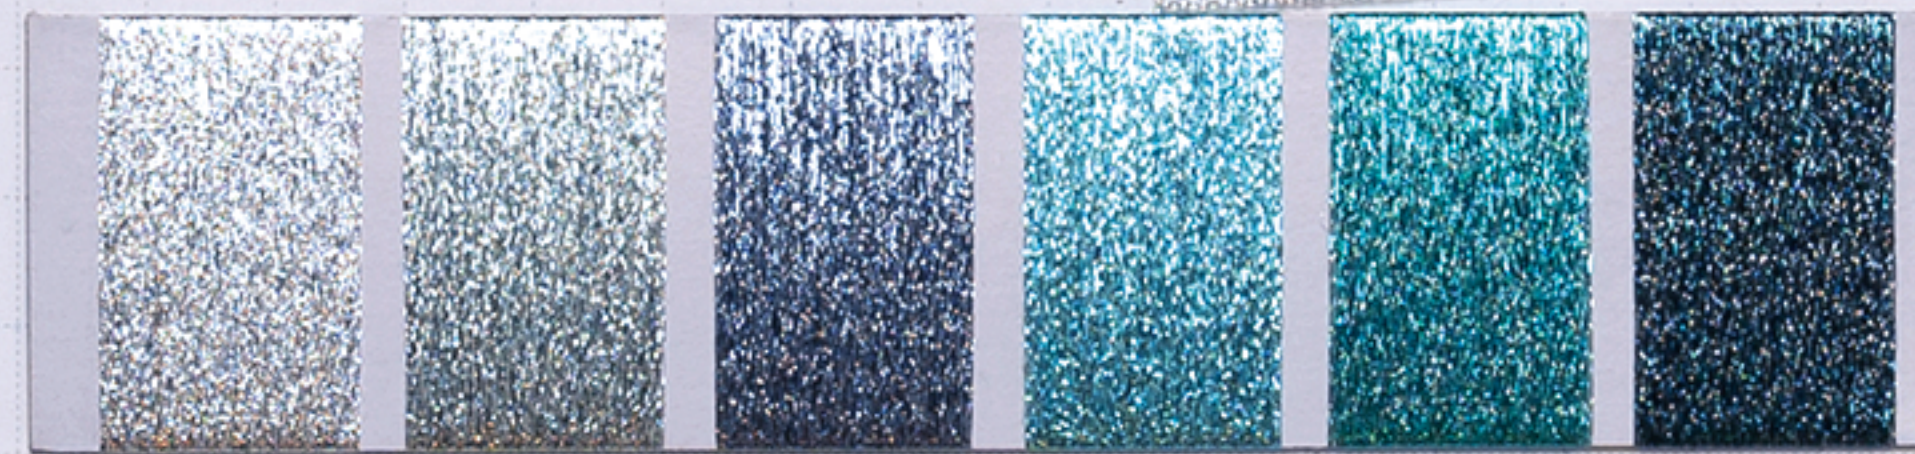

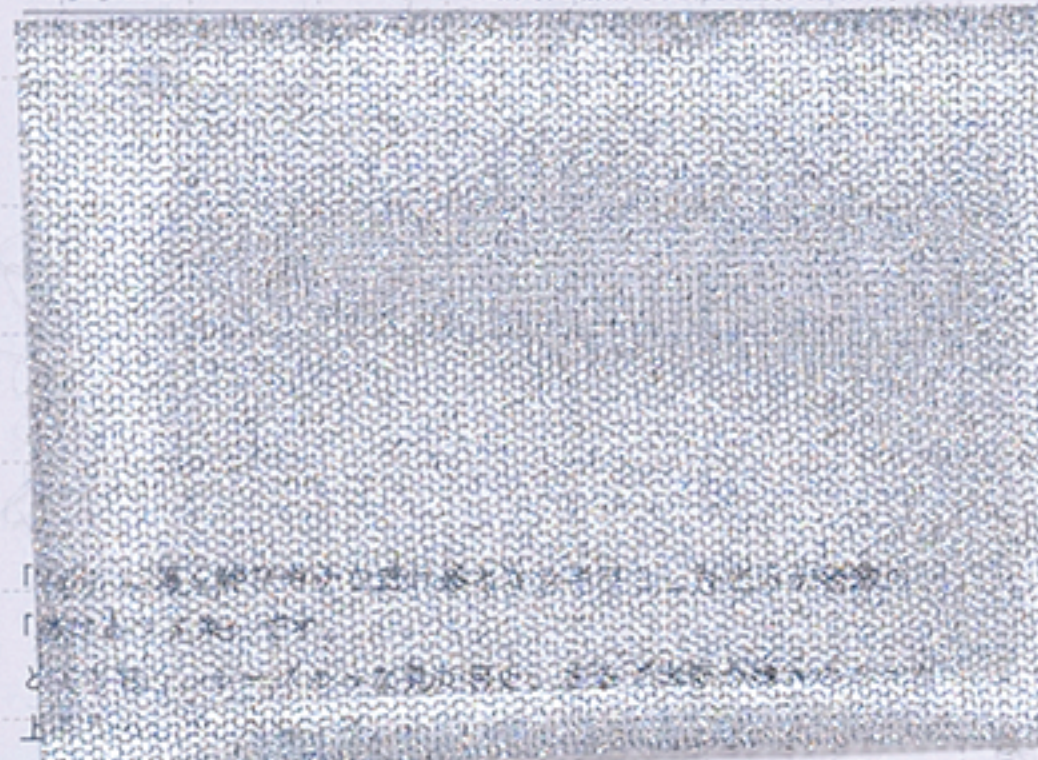

"Veil" is a sheer, glittering yarn known for its thin and delicate translucent quality. It's super lightweight and has an elegant shimmer that resembles the glistening surface of water.

Knitting Sample

16 gauge 2 ends

We recommend machine gauge 16 with two ends. When knitting one end, there is a tendency for damage to the Metallic film to be noticeable.

1本取りでのソック使用はラメフィルムの破損箇所が目立つ傾向にあるため、16ゲージ2本取り等、本数取りでの利用を推奨しております。

VE09 VE60 VE13 VE29 VE37 VE36

Precautions for Metallic Yarn:

The recommended gauge is 16 gauge 2 ends, when knitting one end, there is a tendency for damage to the Metallic film to be noticeable.

- *Keep dye lots separate.
- *Please avoid rewinding the yarn.
- *Acids and alkalis can damage Metallic Yarn. When string clothing that uses Lamé, please avoid contact with fabrics containing acidic chemicals.
- *Remove sweat, spills, etc. immediately by laundering in water or by dry cleaning.
- *Wash dark-colored products separately from other laundry.
- *Before string, first ensure that the Lamé is dry. Then cover with a thick polyethylene bag.
- *Please avoid using mothballs in the storage area.
- *Please contact us if you have any problems or troubles knitting with our Metallic Yarn.
